

LEARNING PROGRESS REFLECTION - No. 1 of 4

EXPLORATION

- Write down a 1-2 sentence synopsis of each of the articles you have found so far, and explain how they relate to your universal theme and which generalizations they connect to.
- So far, in your exploration of the topic, what did you learn that was new?
- In your exploration of your topic, did you change your topic, your driving question, universal theme, or generalizations? Why did you change any of those elements, or why did you not change them?
- In your next steps, what other information do you hope to find?
- How is your collaboration going so far? What is working well and not working well?

This first reflection is due on Friday, March 24th, 2017 by midnight. Please write 12-15 sentences answering one or more of the questions in the prompt above. Write your reflection in the box below and submit it on Canvas. Grammar, spelling, your thought process, and your ability to clearly and thoroughly communicate what you mean will be considered in your grade.

LEARNING PROGRESS REFLECTION - No. 1 of 4

EXPLORATION

- Write down a 1-2 sentence synopsis of each of the articles you have found so far, and explain how they relate to your universal theme and which generalizations they connect to.
- So far, in your exploration of the topic, what did you learn that was new?
- In your exploration of your topic, did you change your topic, your driving question, universal theme, or generalizations? Why did you change any of those elements, or why did you not change them?
- In your next steps, what other information do you hope to find?
- How is your collaboration going so far? What is working well and not working well?

Other information I hope to find is to see why people stereotype religions. I also hope to find how the idea of religions to be violent, the idea that the people in the religions all feel the same way about issues, and how some people in the religion act, converge to form religious stereotypes. I want to see how society's views are affected so much by some of the peoples actions. Another piece of information I hope to find is more reasons why people think about them that way. I do get why most people see them and believe all act this way and all have the same morals. I want to understand the other side, which are the other religions. I know my findings won't and will not change my beliefs, but I want to know the other side. Our collaboration is going not as well as I thought it would. Since I don't have Paola Ramos in any of my classes, I don't see her. She is still doing work, but I can't really get a hold of her during the school day. I think we just need to communicate better on what we want to do. This happens with Samara too. We are in the same class, but I feel that we need to talk more. We need to be more comfortable talking to each other. What is working well is that we all know our parts, so we do the work we each need to do.
